University of CA Berkeley

April 2018

Full Stack Web Development
Program. Completed a total of
2,400 hours of coding.

University of CA Santa Cruz

June 2012

B.A. Psychology; B.A. Feminist
Studies

Applications Built

MediHelper: An app designed to improve the process of caretaking by providing easy access and storage of information necessary for successful caretaking.

- Built with React, Javascript, Node.js, MongoDB, Bootstrap, & Twilio
- Role: Created the parent component that houses the main features of the app. Coded the routes for user to access and store patients in the Mongo database.

Tavola: Web application designed to provide easy immediate access to medical information of students.

- Built with Node.js, JavaScript, Handlebars.js, MySQL, & Bootstrap
- Role: Created wireframe with input from team members. Wrote code for front end utilizing handlebars.js. Coded routes to access SQL database.

Find Your Nature: Users can search for national park attractions in the United States. Search results display a brief description of the attraction, as well as, weather forecasts and alerts.

- Built with JavaScript, HTML, Bootstrap, Firebase, Google Maps API, National Park Service API, Dark Sky API, & Air Quality Open Data API
- Role: Created the comment feature, allowing users to write comments for the national park attraction they visited, timestamps it, and stores it into Google's Firebase database.

Professional Experience

CALIFORNIANS FOR JUSTICE

Leadership Development Coordinator

October 2016 - August 2017

- Successfully led and designed a professional learning network for 3 school districts, which resulted in the development of their stakeholder engagement plans.
- Coached participants through goal setting, planning, and challenges.
- Managed internal deadlines, participant milestones, and communication between network participants.

Operations Associate

August 2015 - January 2016

- Under minimal to no supervision, successfully led and managed logistics for 4 major organizational statewide events, totaling 300 participants.

Youth Organizer

April 2013 - May 2015

- Managed regional youth leadership program and recruitment, leading to largest youth base out of the 3 other regional offices.
- Continually met programming goals by developing effective tracking and timeline tools.
