MySQL
MongoDB
Git/Bash

Strengths

Project Management
Team Management
Communication
Critical Thinking
Adaptability

Education

University of CA Berkeley
April 2018
Full Stack Web Development Program. 900 hours of coding.

University of CA Santa Cruz
June 2012
B.A. Psychology;
B.A. Feminist Studies

Applications Built   2018

MediHelper: *Improves the process of caretaking by providing easy access and tracking of information necessary for successful caretaking.*
- Built with React, Javascript, Node.js, MongoDB, Bootstrap, & Twilio
- Role: Created parent component housing main features of app. Established routes for user to access and store patients in the Mongo database.

Tavola: *Provide easy immediate access to medical information of students.*
- Built with Node.js, JavaScript, Handlebars.js, MySQL, & Bootstrap
- Role: Created wireframe incorporating input from team members. Designed user interface utilizing Handlebars.js. Coded routes to access SQL database.

Find Your Nature: *Search for national park attractions in the United States. Results display a brief description of the attraction, weather forecasts & alerts.*
- Built with JavaScript, HTML, Bootstrap, Firebase, Google Maps API, National Park Service API, Dark Sky API, & Air Quality Open Data API
- Role: Created timestamp comment feature, allowing users to write comments for the national park attraction they visited and stores it into Google's Firebase database.

Professional Experience

CALIFORNIANS FOR JUSTICE

Leadership Development Coordinator   *October 2016 - August 2017*
- Successfully led and designed a professional learning network for 3 school districts, growing year 2 of network into 7 school districts. More than doubling the number of participants
- Coached 6 participants through goal setting, planning, and troubleshooting.
- Managed internal deadlines, participant milestones, and communication between network participants.

Operations Associate   *August 2015 - January 2016*
- Under minimal to no supervision, successfully led and managed logistics for 4 major organizational statewide events, totaling 300 participants.

Youth Organizer   *April 2013 - May 2015*
- Continually met annual programming goals by developing effective tracking and timeline tools.
